Boris Bezmenov

Bonn, Germany

boris18092007@gmail.com @yugavka github.com/yugavka

Education

University of Bonn, Bonn, Germany 2026–2029
B.Sc. in **Mathematics**

ITMO University, Saint Petersburg, Russia 2025–2026
B.Sc. in **Applied Mathematics and Computer Science**
Specialization: *Artificial Intelligence*

Presidential Physics and Mathematics Lyceum No. 239, Saint Petersburg, Russia 2021–2025
Secondary Education, Physics and Mathematics Track

Yandex Lyceum, Russia 2023–2024
Python Development Program

Projects

Turkey Search Demand Map *Machine Learning / Data Science Project*
Project link

- Developed an end-to-end spatio-temporal machine learning pipeline for analyzing and forecasting search demand across 81 Turkish provinces.
- Built short-term demand forecasting models using temporal, spatial, and historical demand features, including recursive multi-step prediction.
- Applied embedding-based semantic classification using BGE embeddings to categorize search entities and support downstream demand analysis.
- **Stack:** Python, Pandas, GeoPandas, NumPy, Scikit-learn, BGE Embeddings, Matplotlib.

Java Core Coursework (prog-intro) *Student Project*
Project link

- Implemented a generic expression parser supporting multiple numeric types with configurable arithmetic and overflow handling.
- Developed a generalized MNK game engine with configurable board dimensions and computer players.
- Built additional parsing and text-processing utilities using object-oriented and generic programming techniques.
- **Stack:** Java, Generics.

Research Experience

Faculty Internship, Saint Petersburg State University (SPBU) 2024
Research Intern

- Participated in academic practice at the Faculty of Mathematics and Computer Science.
- Studied advanced mathematical topics, including algebra, topology, and related theoretical foundations.

Honors & Awards

- Winner, **Phystech Olympiad in Mathematics** (2024)
- Winner, **Regional Stage of the All-Russian Olympiad in Economics** (2024)
- Prize-Winner, **Rosatom Physics and Mathematics Olympiad** (2024, 2025)
- Prize-Winner, **I. Ya. Verchenko Interregional Olympiad in Mathematics** (2025)
- Prize-Winner, **United Interuniversity Olympiad in Mathematics** (2025)
- Prize-Winner, **Regional Stage of the All-Russian Olympiad in Economics** (2025)

Technical Skills

Languages: Python, Java, C/C++, SQL
Machine Learning & Data Science: Pandas, NumPy, Scikit-learn, CatBoost, Matplotlib, Seaborn, PyTorch
Developer Tools: Git, Docker, Linux (Bash) **Mathematics:** Linear Algebra, Calculus, Probability Theory, Statistics
Human Languages: English (C1), German (C1), Russian (Native)

Relevant Coursework & Certifications

- **Machine Learning**, HSE Course – 2026
- **AI**, Claude Academy – 2026

- **AI Agents**, 5-Day AI Agents Intensive course with Google – 2025
- **Data Analysis**, Online Data Analysis Internship – 2025
- **Data Science**, Python for Data Science, AI & Development IBM – 2024
- **Data Science**, Data Science Tools IBM – 2024
- **Olympiad Mathematics**, Lyceum 239 – 2021-2025
